

I'm so excited - the holidays are here!!
And I have an idea for my present this year
that doesn't involve plastic, batteries, or noise,
And it won't end up in a box of old toys.

I thought you might like to make a gift to my school,
PS3, where I learn to be cool,
And kind and creative and smart and fun.
All of those things rolled up into one.

Then I will make you your very own leaf,
That is sparkly and gold, for our school "Giving Tree"
Which grows in our lobby when donations are made
For my favorite classes, like music and clay.

But also for recess aides, smart healthy lunches,
And supplies for my teacher to give out in bunches.
Field trips, a cooking room, and artists who teach -
All of the things that make my school neat!

It's just an idea that I thought you should hear
Since I'm learning so much here year after year.
But also I want to make sure that you know
That I love you and thank you for helping me grow!
